The Unscrambler “Classroom package” pricing information

Dear Sirs,

As a result of your interest for The Unscrambler I have quoted you for a classroom package of the software and a classroom set of the book Multivariate Data Analysis in Practice 5th Ed. by Prof. Kim Esbensen.

Price	Total cost
€550	€550

Annual Support and Upgrade Program (AS&U) for The Unscrambler®

When you buy The Unscrambler® classroom package it is mandatory with minimum 2 years subscription to the Annual Support and Upgrade Program.

The Unscrambler® is continuously updated and CAMO's ambition is to make one major upgrade at least every second year, and a number of minor upgrades each year. These, and support by phone or email are included. You are also qualified for discounts on in – house training, courses, the training package The Introducer, and additional licenses and consulting.

As a member of this program you will also receive upgrades of the On – Line Predictor and the On – Line Classifier licenses. Please note that you have to purchase these licenses first.

As part of this offer you will receive the first year for the AS&U program without extra cost.

The AS&U cost after the first year is:

Year	Price	Total cost
1	€300	€300
2	€300	€600

This program will be renewed unless you cancel it. If you would like to cancel you must do so minimum 30 days before a new period begins.

Multivariate Data Analysis in Practice 5th Ed. by Prof. Kim Esbensen

Practical applications of multivariate techniques such as PCA, PCR, and PLS. Non-mathematical approach - ideal for analysts with little or no background in statistics. Step by step introduction of new concepts and techniques that promotes ease of learning. Theory supported by practical hands-on exercises based on real-world data. Includes a full working
